**ISSUE:**

UDOT Local Government Contract – Construction Engineering Management for 6200 South

**SYNOPSIS:**

An agreement between West Valley City, UDOT and Stanley Consultants to perform construction engineering management services on the 6200 South extension project

**BACKGROUND:**

The extension of 6200 South from Mountain View Corridor to SR-111 is being prepared for advertisement through the UDOT procurement system. It is anticipated that the project will bid late in 2015, and the road will be built during the 2016 construction season.

In preparation for construction, Stanley Consultants is being contracted to provide construction engineering management services on the project. These services include plan review prior to bidding, construction management, field inspection services, material testing and all other administrative matters to ensure compliance with processes for the use of federal funds.

This contract is being paid for with the federal funds available on the project. The contract amount is \$338,594.83. Under the previously executed Federal Aid Agreement, West Valley City is responsible for 6.77% of the cost of the project, making the city share of this work \$22,923.

**RECOMMENDATION:**

Approval of the Federal Aid Agreement.

**SUBMITTED BY:**

Daniel Johnson, P.E., City Engineer
